

Information for teachers

Pushes and pulls trail

This trail is designed to take Key Stage 1 pupils on a route through the exhibits in **Explore@Bristol** to discuss some forces they encounter.

It is free to download and although in colour works just as well when photocopied in black and white.

The trail takes approximately 30 minutes to complete but this time can vary depending on ability and how busy the exhibits are.

It is designed to be completed individually with lots of opportunities for pupils to discuss their ideas within a group. Adult support will be an advantage.

The numbered sections do not need to be followed in order.
